

Contents

Editorials

- 207** Choosing 'Less' Wisely as a marker of decisional conflict *K Okrainec, M Roy*
- 210** Low-quality evidence on practices to prevent transmission of resistant organisms calls for rigorous trials and a paradigm shift *B Trautner, M L Schweizer*

Original research

- 213** Equity in Choosing Wisely and beyond: the effect of health literacy on healthcare decision-making and methods to support conversations about overuse *D M Muscat, E Cvejic, J Smith, R Thompson, E Chang, M Tracy, J Zadro, R Linder, K McCaffery*
- 223** Global, regional and national time trends in incidence of adverse effects of medical treatment, 1990–2019: an age–period–cohort analysis from the Global Burden of Disease 2019 study *L Lin*
- 234** Factors associated with proximal femoral fractures in older adults during hospital stay: a cross-sectional study *M Moriwaki, A Takae, M Toba, M Sasaki, Y Ogata, S Obayashi, M Kakehashi, K Fushimi*

April 2025 Volume 34 Issue 4

Systematic reviews

- 244** Prevention in adults of transmission of infection with multidrug-resistant organisms: an updated systematic review from Making Healthcare Safer IV *S McCarthy, A Motala, P G Shekelle*
- 257** Rapid response systems, antibiotic stewardship and medication reconciliation: a scoping review on implementation factors, activities and outcomes *J T Ohlsen, E Sjøfteland, P E Akselsen, J Assmus, S Harthug, R K Lein, N Sevdalis, H V Wæhle, J Øvretveit, M Hartveit*

Viewpoint

- 269** The problem with uptake as a quality metric for population-based screening programmes *N Armstrong, S Taylor-Phillips*

The problem with...

- 273** The problem with the existing reporting standards for adverse event and medical error research *C R Carpenter, R T Griffey, A W S Rutjes, M Unbeck, L M Adler, D C Stockwell, D Classen, SESAME Statement Development Team*
